Euler and Lagrange developed the theory of the calculus of variations in the eighteenth century. its main ingredient is the ... **basics of control: icdms - msci/msc** - we will then move on to topics in optimal control. Nick Jones **basics of control: icdms**. control is a point of view control is a point of view: it lies within dynamical systems and often involves breaking dynamical systems up into elements like controlling input signals, controlled output signals, feedback, feedforward, and plant (the system being controlled). because it is a point of view ... **Harry G.
